Amino Acids (%)	
Aspartic Acid	0.03
Glutamic Acid	0.14
Leucine	0.01

Micronutrients (ppm)	
Boron	173

Macronutrients (%)	
Calcium	0.03
Magnesium	0.04
Nitrogen	0.25
Available Phosphate	6.00
Potash (soluble)	4.00
Sodium	0.51
Sulfur	0.20

Values reported are averages based on typical laboratory analyses. NAK MFG is a natural product, and as such specific nutrient content is subject to fluctuations with seasonality, location, and rockweed biology. The above information is provided in good faith and believed to accurately represent the products in question. However, these averages should not be considered a guarantee, and Atlantic Laboratories Inc. assumes no liability based on this information and the product described.
